GOLDEN®: BOAT HOUSE LIFTS

Boat houses provide the ultimate defense against environmental extremes: sun, heat, dirt, rain and UV rays. However that does not stop the barnacles, algae, and other nuisances from affecting an idle boat stored in the water. By installing a Golden Boat House Lift, not only will it reduce the maintenance on your boat, it will also maintain a showroom appearance and run faster with increased fuel savings. Golden manufactures several styles of boat house lifts, capacities range from 6,000# to 24,000#.

FEATURES

- 1) Maximizes slip width
- 2) 1, 2, or 4 motor configurations
